Complete the Unit Circle. Include radian and degree measures and the ordered pairs.

For each of the following, you are given the figure that displays a unit circle and an angle of 1 radian.

(i) Draw the angle, (ii) note the ordered pair, (iii) write the answer in simplest terms.

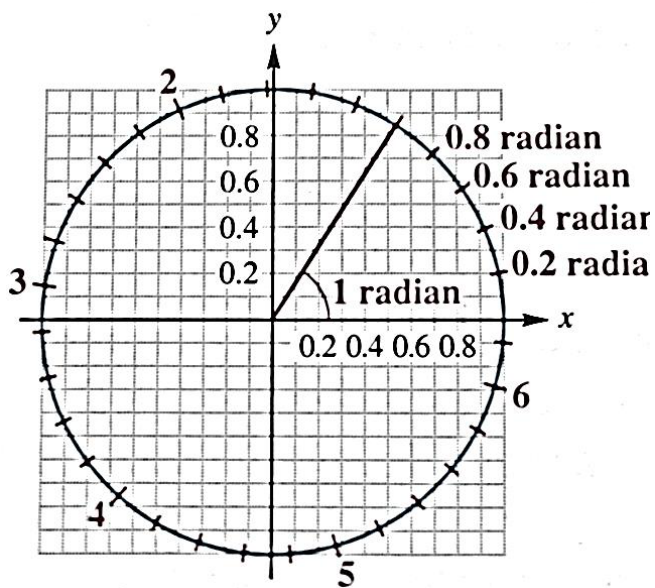

16

$$\cos 4.2 = \underline{\hspace{2cm}}$$

$$\sin A = -1/2, \cos A < 0 \rightarrow A = \underline{\hspace{2cm}}$$

17

$$\tan (2) = \underline{\hspace{2cm}}$$
